INTRODUCTION

Passionate, Purpose-driven Software & Blockchain Developer for innovative technology and a proven track record of delivering high-quality software solutions. Adept at leveraging cutting-edge tools and methodologies to design, develop, and implement software applications. Eager to contribute my expertise in Software & Blockchain development to your esteemed company. Dedicated to adding value with a strong sense of responsibility, accountability, and exceptional service etiquette.

SKILLS

- **Software Development:** Proficient in JavaScript, TypeScript, Solidity, Flutter and experience in delivering scalable and reliable software solutions.
- **Full-Stack Development:** Proficient in both front-end and back-end development, with expertise in Node.js, React.js, Next.js & also front-end framework: Tailwindcss, Chakra-UI, Mantine-UI & Shadcn-UI
- **Blockchain Development:** Solid experience in Ethereum, and other blockchain frameworks. Proficient in creating and deploying smart contracts using Truffle, hardhat and foundry.
- **Decentralized Applications (DApps):** Skilled in building DApps for various ecosystem eg. Defi, DAO and Nfts utilizing Web3 cutting-edge tools and methodologies and other blockchain libraries.
- **Smart Contract Auditing:** Thorough understanding of smart contract security best practices and participating in auditing contests.
- **Prompt Engineering with AI:** Proficient in leveraging Artificial Intelligence (AI) techniques for efficient software development, debugging, and problem-solving.
- **Version Control:** Proficient in using Git and GitHub for collaborative development and version control.
- **Agile Methodologies:** Experience working in agile development environments, delivering iterative and incremental software solutions.
- **Problem Solving:** Strong analytical skills and the ability to identify and resolve complex technical challenges efficiently and the ability to debug.

WORK EXPERIENCE

Blockchain Developer | Gitcoin – EthGlobal – Encode Hackathons | Oct 2021 - Present

- Actively participated in numerous hackathons, showcasing expertise in blockchain development.
- Successfully completed and contributed to more than 25 projects during hackathons, demonstrating a strong commitment to innovation and problem-solving.
- Received recognition and awards for 23 of the projects, reflecting a consistent track record of delivering high-quality and impactful solutions.

Software & Blockchain Developer | Unstoppable Domains | Jan 2023 – March 2023 | Contract

- Successfully integrated login and resolution functionality into 4 web Apps: [Gigiblock](#) | [Eddalytics](#) | [Multify](#) | [Bubble](#).
- Collaborated with the team to address specific requirements and ensure seamless integration of login features.
- Displayed adaptability and problem-solving skills by addressing technical challenges and achieving project goals within set timeframes.

CERTIFICATIONS

- The Complete Flutter Development: Udemy by Dr. Angela Yu | 04/2021
- The Complete Web Developer Zero to Mastery: Udemy by Andrei Neagoie | 07/2021
- Certified Blockchain Professional: SkillUp by SimpliLearn | 07/2021
- JavaScript Algorithms and Data Structures: FreeCodeCamp | 08/2021

RECENT PROJECTS

- **Dual:** Specialized social marketplace platform for FVM gamers. [\[Live\]](#)
- **Instax.fi:** Building the next best generation zk-rollups Yield, Bridge, StableSwap experience. [\[Live\]](#)
- **Eddalytics:** A visual analytics, with rich information about the health and performance on Evmos ecosystem. [\[Live\]](#)
